Dear Nina, Matt, Reggie, and Scott,

As further followup to some of the conversations we've had in the past week, in case any of this helps, here is a full set of EPA Q&A's from this year that we have produced in response to questions we have received from reporters and members of the public.

The last files attached have some more detailed technical questions. We have answers to these also, but they are still in draft form, so I am not emailing them now. If you ever want to go over any of them by phone, let me know.

A caveat on any of the answers related to the EPA PRG calculator: EPA updated this in Dec 2016, and we are still working out some programming glitches. So we will update the information once we work through technical issues.
